

**COLLABORATE**  
with your  
municipality

### SELECTIVE COLLECTIONS

#### Yellow for package containers

Plastic, bricks and tins. Before you put them in the bin, empty the liquid.

#### Blue for paper and cardboard

Always fold and flatten before putting in the bin.

#### Green for glass items

Deposit in bin without liquid. No ceramic or porcelain.

**CESPA plans for a selective collection** to promote the sustainability of the residues and reduce the costs of waste treatment.

**With just small gestures** you can help to keep the municipality cleaner.

**Use the facilities** that we offer you.

### SOLID URBAN RESIDUES

Put each type of waste in the corresponding container. Never out of the container or on the ground.

### CLEANING OF ROADS AND BEACHES

- Use **bags** to pick up your dogs excrement and put in the waste paper bins.
- Use the **waste paper bins** and keep the beaches and streets clean.

### COLLECTION OF UNWANTED HOUSEHOLD GOODS

- Free service to collect your old household goods, free telephone call to **900 102 149**
- Use the spaces provided at the "Punts Verds" (Green Points)

### GARDEN REFUSE / RUBBISH

#### SMALL AMOUNTS OF GARDEN RUBBISH FROM PRIVATE PROPERTIES

Small amount from private gardens can be put in the containers at the "Punts Verds" (Green Points), **not in bags.**

#### GARDEN RUBBISH IN LARGE AMOUNTS.

Professional gardeners and those who have large amounts of garden rubbish should go to Ramblars to dump it.

# the new service

Xabia has now a new rubbish collection and road cleaning service. With the aim to have a cleaner and more sustainable municipality the company CESPA, with their experience, provide these services with the improved technical equipment and professional team who will ensure the best results.

## IMPROVEMENTS

### THE BINS WILL BE

- **Above ground.** In the majority of the municipality the rubbish collection will be modified from rear, to side of vehicle loading, changing therefore, the existing bins for new ones with more capacity and a larger opening.
- **Underground.** Existing ones will be replaced with additions to a total of 88 new ones. The new system allows the cleaning and the replacement of the bin, improving hygiene and eliminating odours.
- **Selective collection.** More than 400 new side loading units. For potential recycling.
- **Cleaning of bins** will be more frequent, weekly in the summer and fortnightly in low season.

Bin for organic waste

Bin for Glass items

Bin for paper-cardboard

### WASTE PAPER BINS

Replacement of the existing ones with **new units** following the design of the surroundings.

### VEHICLES

**A Fleet of more than 20 new vehicles** will attend to the collection of rubbish, road and beach cleaning, including the special service of the collection of unwanted household goods.

### CONTROL SYSTEM

**To ensure the control and optimisation** of the services.

## ATTENTION TO THE CITIZEN

### CESPA

You have at your service qualified CESPA personnel to attend your Needs and suggestions at C/ Lepanto 2. Free telephone call **900 102 149**

### TOWNHALL

REGIDORIA DE SERVEIS  
Príncipe de Asturias, 14
